

### Work with us on a sustainable energy supply!

We are pioneers of renewable energy by conviction. ABO Energy develops and builds wind and solar farms as well as battery and hydrogen projects worldwide. For almost 30 years, ABO Energy's in-house specialist departments have been providing all steps of project development and implementation: from site assessment, planning, engineering, permitting and financing to construction, energy sales, grid connection, operational management and maintenance. A future worth living for future generations is our overarching goal. Renewables are our DNA.

## Working student (m/f/d) HES Analytics & Reporting

We are a dynamic and successful team within ABO Energy, which is committed to the optimal integration of renewable generation plants through storage systems. We are looking for an intern/work-student to support Analytics & Reporting of our Hybrid Energy Systems & Storage solutions at the Wiesbaden office.

### Your passion

- You assist in analyzing Battery Energy Storage Systems (BESS) data
- You help in data collection, cleansing, and validation processes
- You collaborate on projects aimed at digitalizing workflows and processes
- You develop and maintain Power BI dashboards and reports for various business needs
- You support the creation and management of digital solutions using Microsoft 365 tools like SharePoint and Lists
- You aid in the preparation and delivery of regular and ad-hoc reports
- You assist team members with troubleshooting and resolving technical issues related to data analytics tools

### Your qualification

- You are enrolled in University for a masters degree in electrical engineering/Data Science/technical computer science, or something comparable
- You are willing to work 16 to 20 hours a week regularly for at least 6 months
- You are ideally familiar with Electrical Engineering concepts, especially related to BESS
- You are familiar with Python for data analysis, Microsoft 365 tools, including Power BI, SharePoint, Lists, and Power Automate
- You speak English fluently, German would be considered an asset and other languages would be an advantage
- You work in a structured and committed manner
- You are willing to bring in your own ideas and you are characterized by proactivity
- You are capable of working in an independent manner and additionally function well in a team

### Don't match all the qualifications?

At ABO Energy, we're committed to creating a diverse, inclusive and authentic workplace. So if you're interested in a position, apply - even if your previous work experience doesn't match all the qualifications. You could be just the right candidate for this or any other position!

Severely disabled applicants will be given special consideration if they are equally qualified.

### Good reasons for joining ABO Energy

We are a dynamic company and rely on appreciation and trust. The work at ABO Energy is not defined by hierarchies, but by competencies and the common will to successfully contribute to the global clean energy transition.
