We are a leading power market analytics company providing our clients with data-driven intelligence for strategic decision-making in the global energy transformation.

As a part of our 21-month Berlin Graduate Analyst Programme, you will get the opportunity to work as part of our Advisory and Research teams, learning new skills while playing a key role in the global transition to cleaner, more efficient energy.

Throughout the program, you'll sharpen your problem-solving, communication, and analytical skills while influencing public debate and guiding high-profile clients.
