

Movement Observation Study @Universitätsklinikum Hamburg-Eppendorf

Online seit 30.06.2025 | 2025-06-30-935100 | Sonstige

Stellenbeschreibung

What is it about?

The Klinik und Poliklinik für Neurologie at Universitätsklinikum Hamburg-Eppendorf is looking for volunteers for our movement observation study.

The study includes **one test session** of approximately 2.5 hours and will take place **between July 2 and July 11** at **UKE in building W34**.

The study is compensated with an **expense allowance of 40 € for the participation**.

Please note at this time we are looking for male volunteers only.

The study is structured as follows:

During the study we will ask you to watch a series of videos. The videos will show a person interacting with an object. Your main task will be to report when you believe the person is fearful of the object. At the end of the study, we will ask you to fill-in some questionnaires.

Anforderungsprofil & Qualifikationen

How does the participation work?

You may participate to the study if:

- You are male.
- You are between 18 and 40 years old.
- You are right-handed.
- You have not been diagnosed with a neurological or psychiatric disorder.
- You don't have any motor difficulties.

- Speak and read English fluently
- Did not participate in our previous 'Movement Study' (November 2023 - March 2024) or our previous 'Movement Observation Study' (November 2024 -December 2024; June 2025)

If you meet the above criteria and are willing to participate – or if you have any questions about the study - please send an email to **n.foster@uke.de**, with the subject “Movement observation study - July 2025”
