

NERA Working Student - Transfer Pricing Practice Frankfurt Office

NERA (www.nera.com) is a global firm of experts dedicated to applying economic, financial and quantitative principles to complex business and legal challenges.

For over 60 years, NERA's economists have been creating strategies, studies, reports, expert testimony, and policy recommendations for government authorities and the world's leading law firms and corporations. We bring academic rigor, objectivity, and real-world industry experience to bear on issues arising from competition, regulation, public policy, strategy, finance, and litigation. NERA's clients value our ability to apply and communicate state-of-the-art approaches clearly and convincingly, our commitment to deliver unbiased findings, and our reputation for quality and independence.

With its main office in New York City, NERA serves clients from more than 25 offices across North America, Europe, and Asia Pacific.

About the position

We are currently seeking a Working Student to join our dynamic and inspiring team in the Frankfurt office. The team works in a range of industries and in the context of advisory, litigation and International Arbitration advice.

Responsibilities include:

- Conducting literature and data research
- Data cleaning, management and analysis and interpretation of results
- Active participation in drafting reports, memoranda, presentations and other work products
- Support of the office administration

You will need

- A BSc in Economics or Finance and be working towards a Masters degree in Economics and/or Finance
- We are primarily looking for students but not PhDs.
- A good working knowledge of applied microeconomics, industrial economics or econometrics
- To be detail-oriented and able to think analytically and critically
- Have excellent technical, oral and written communication skills.
- Proficiency in Excel and a good knowledge of PowerPoint, Word and Stata

- Speak and write English and German fluently.

What we offer

- Learn from leading economists and industry experts
- Work on high-profile cases, allowing you to have a real impact by applying economic theory
- Early responsibility in project work, providing you with exceptional development opportunities
- A collaborative environment with a flat hierarchy
