Stellenbeschreibung

Hi!

I'm building the design basketball brand Comrade Berlin (comradeberlin on Social) from Berlin.

Currently we ship to 20 countries every day with only 1,5 people working on the brand. This is obviously not ideal and especially Social media is suffering from this. This is where I need your help and fresh ideas!

This job means you have full creative freedom, can work together with an external video editor and execute all the fun trends and Video ideas out there.

You work directly with Leo (founder) and can learn everything about how to grow a brand on social media!

This job also means you can put any success we have together in your LinkedIn / portfolio and kickstart a career in Social Media. Would love to support you on that journey.

Anforderungsprofil & Qualifikationen

- you love Social Media and spend regular time on TikTok and Instagram
- you have first experience with Canva (stills) or Capcut (Videos)
- you are interested in basketball, sports, interior design!
- you can work self-responsible and are passionate to execute your own ideas (you will get support, mentoring, budget)
- you love to also execute provocative / non-standard ideas

Vorteile für Mitarbeitende

- Flexible Arbeitszeit
- Weiterbildungsmöglichkeiten
- Haustier erlaubt
- Home Office
