

Webinar

# **Women in STEM - explore careers in energy trading and operations**

**The session is especially aimed at female students, but open to anyone curious about working with data, technology, and real-world challenges in the energy sector.**

**Join our webinar  
on 8 July 2026, 2:00 PM (CET) if you...**

- study a STEM or quantitative field (e.g. IT, engineering, maths, physics, economics)
- are curious about energy, technology, and real-world impact
- bring an analytical mindset
- enjoy working with data, programming, or solving complex problems
- communicate confidently in English
